### Bendy Rattles

Bendy is a grasping and shaking toy with twists and turns made of three interlocking overhand knots. The unique artistic shape creates a continuous sense of wonder. With an elastic connector, it will be deformed when clutched, providing tactile stimulation. The two rings will produce a pleasing rattle sound when hitting the ground, which helps enhance the baby's auditory sense. Bendy is a perfect clenching toy for developing fine motor and gross motor skills.

#### Size

W 4 3/8" x L 4" x HT 1 7/8" (11 x 10 x 4.5 cm.)

#### Ages

0 Months+

### Grabbers

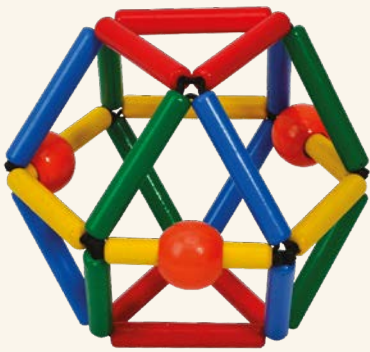

A light weight polyhedron is constructed of wooden dowels and hidden elastic ties which makes it easy for baby to grasp and squeeze. Provoking the sense of curiosity and consequences as the baby watch the shape changes and return to its original shape. The beads slide back and forth along the dowels when shaken, producing a pleasing sound and allowing baby to explore sound. Grabber is a perfect clutching toy for developing fine motor and gross motor skills.

**Path to Discovery**

These path finding toys offer different levels of stimulation in hand movements and control. Children move the pieces along the given paths to discover the concept of gravity by seeing the pieces fall or slide down the rails. As the paths get more complex, children will build their patience and concentration in trying to conquer the maze. The discovery themes of these mazes help encourage imagination and promote a sense of curiosity in science and nature.

### Game Time!

We aim to create wooden pieces that are not just fun for the children but bring the whole family together. The suit of products consists of fun yet challenging games that exercise children muscles manipulation, social skills, and bring a lot of laughter to the room. Variety of traditional (with a twist!) board games are also great for pre-schoolers to practice strategic and critical thinking. They are also visually pleasing for the adults who enjoy practicing their brains or are looking for activities to release themselves from the screens and stress.

### Construction Toys

From traditional unit blocks, to line connecting cubes, to pattern building, our construction toys are versatile and have so many benefits for the children's developing skills. Building toys promote motor skills, engineering skills, and social skills. Our goal is to provide versatile tools that give children freedom to think outside the box and boost creativity.

 W 8" x L 11 3/4" x HT 2 3/4" (20 x 30 x 7 cm.)

Construction Toy

**Building Themes**

Additional alternatives to conventional geometric blocks, these items are inspired by world's heritages. These detailed blocks bring children's imagination to renowned architectures as they play. Children are also encouraged to play freely and use their imagination to create unique architectures of their own.

**Ages**  
 36 Months+

WT9988

W 5 1/2" x L 11" x HT 10 1/4" (14 x 28 x 26 cm.)

39032  
**FORK LIFT TRUCK**

W 5 1/8" x L 11" x HT 8 5/8" (13 x 28 x 22 cm.)

39033  
**CRANE TRUCK**

W 5 1/8" x L 11 7/8" x HT 7 1/2" (13 x 30 x 19 cm.)

**Construction Vehicles**

Construction vehicles are fun and valuable learning tools for children. Promote gross motor and fine motor skills by moving with these smooth rubber wheels and distinct living parts like real life trucks. Vehicle toys create sense of wonders and imagination, of which children will soon bring into real life observations and discovery.

**Ages**

36014  
**WORK BENCH**  
 W 18" x L 19" x HT 21" ( 46 x 48 x 53.5 cm.)

**Meet The Builder**

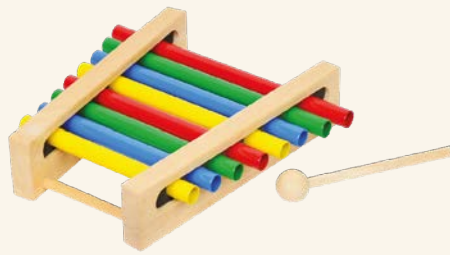

A tool box is an essential item to a playroom. Children get to practice their fine motor skills and eye-hand coordination as well as learn to identify names of handyman tools. These friendly wooden nuts, screws, hammers, and many others help encourage children to move and fix things around the house. Allow children to explore their environment and ask questions to adults will help promote social and communication skills.

**Primitive Sounds**

These instruments are inspired by those of ancient tribes which were typically made of natural materials in primitive forms. These musical toys encourage children to explore and develop the sense of rhythm and differentiate sounds. Children get to express themselves in variety of actions, allowing them to practice their hand muscles as well as coordination skills.

Pretend Play

**In The Kitchen**

Cooking is another form of creativity, science, and critical thinking. Watching grownups in the kitchen is a great start, but allowing children to have freedom to be the chef in their own kitchen is very valuable. These kitchen units give children the opportunity to be creative, build confidence and learn new skills and terms.

### Build Your Own

Our new gable and crescent dollhouses come in loose units that can be arranged according to the space and child's imagination. The dollhouses in abstract and vivid design are meant to be for open-ended play. Furniture and doll family of four are provided in each house and they can be played together as big housing compound.

**Age**  
36 Months+

**Classic Dollhouse**

Our beloved classic dollhouses in primary colours and country style help foster creativity and imagination. The houses come fully furnished and with doll family of six. Children will learn to mimic the relief roles through these characters, which help develop social skills and boost imagination. More accessories and dolls can be added to the house for extensive storytelling time.

**Senses and Moves**

Discover the range of toys that combines gross motors and sensory play together. Children will learn to find balance, develop the sense of tactility, and practice their gross motor skills through their body movements. From balancing to matching tiles, these simple toys allow adults to give guidance and incorporate activities to add more learning benefits into the play time. It is also encouraged that children set their own rules and build their own games with friends to develop social and planing skills.
